

About Future Wonder

Future Wonder is an IT Consultancy providing software and infrastructure services to leading global finance companies, cutting-edge Indiana software startups and other established businesses. www.futurewonder.com

Job description

We have internship positions open for candidates to work with our web development team on cloud-based web applications. This is an exciting opportunity to contribute directly to the software stack for a variety of Future Wonder clients. The work will be paid at an hourly rate. Both part-time and full-time positions are available.

Education

- Candidates must be studying for an Associate's or Bachelor's degree in computer science or a related field.

Requirements

- Authorization to work in the U.S.; this includes OPT / CPT programs.
- At least 2 solid references
- Willingness to work on a qualifying online coding exercise
- A liking for some fun while learning and developing with the rest of the team!

Desirable to have

- Experience developing application front ends with HTML & JavaScript
- Experience developing HTTP endpoints for a web application
- Experience working with backend APIs, ideally in Python
- Experience with SQL (e.g. PostgreSQL) and/or NoSQL (e.g. MongoDB) database backed applications
- Knowledge of version control (e.g. GitHub) and Continuous Integration (e.g. Teamcity)
- Automated testing experience

Location

We are located in Bloomington, Indiana at the Bloomington Cowork www.coworkbtown.com.
