

About Future Wonder

Future Wonder is an IT Consultancy providing software and infrastructure services to leading global finance companies, cutting-edge Indiana software startups and other established businesses. www.futurewonder.com

Job description

We are looking to hire a C# developer with 2 years+ experience to assist in building out a trading application for a client in the finance industry. This is an exciting opportunity to work with the Future Wonder development and design teams to realize a client vision. The initial engagement will be for 3 months with the possibility of follow on work for strong contributors.

Requirements

- 2 years+ experience with C# dotNet
- A focus on software quality
- Authorization to work in the U.S.
- Willingness to work on a qualifying take home coding exercise
- At least 2 solid references
- A liking for some fun while learning and developing with the rest of the team!

Education

- The minimum requirement is a bachelor's degree in Computer Science or a related field

Desirable to have

- Experience with C# Winforms or WPF GUI implementations
- Automated testing experience
- Experience working with third party APIs
- Knowledge of version control (e.g. GitHub) and Continuous Integration (e.g. Teamcity)

Location

We are located in Bloomington, Indiana at the Bloomington Cowork www.coworkbtown.com.
